- One storage room
- Three open discussion area
- Product display showcase

Promotion Counter

Creeya Promotion Counter is a stable counter that uses the Creeya Fascia module for branding and wooden table top. The counter attaches to the Creeya structure with a Junction Post. Packs in fabric bag.

Reception Counter (RAPID PLUS)

Creeya Reception Counter has a contemporary laminated MDF front and back panel with fabric sides. The counter has an acrylic fascia attached to the front panel that provides more branding space. The back panel has a lockable door to keep the content secure. The weight carrying capacity of the counter is 40 Kg. Packs in a riveted shipping case.

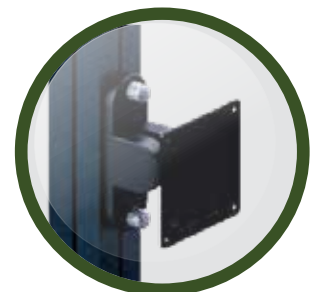

Lighting

Creeya offers eco friendly LED arm lights to illuminate the booth walls and the entire booth. These arm lights have a connector that helps connect to a Creeya wall with ease.

Screen Mounting Attachment

Creeya screen mounting involves mounting an LCD bracket with knobs to a Creeya Mid Height Roof Post. To this an LCD screen upto 22" is easily slid on & connected.

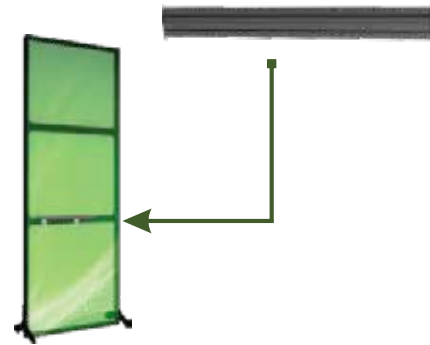

Door

The privacy and security required for conference rooms and pantry at an exhibition stall is provided by the Creeya door. It uses fabric graphics which add on the branding space in the booth. The fabric door too has a complete tool free assembly.

Accessory Post

Creeya comes with a Mid Height Roof Post to mount LCD screen or product shelves. The same post can also be used to form Mid Height Roofs / Bridges connected to a Creeya wall.

Packaging Case

Creeya backwalls pack in an easy to carry riveted shipping case while booths pack in flight cases. Booth packaging options are available depending on the booth design and size.

Riveted Case
W 550mm x H 160mm x L 1215mm

Flight Case
W 415mm x H 365mm x L 1250mm
